October 17-20, 2008

Presentation by
Bala Lodhia D.Ac., D.H.

QX-world conference Budapest 2008

- **Bala Lodhia D.H.,D.Ac.**-IMUNE board member and trainer. Bala has trained and worked under Dr.Norma Harman (Narayani) for 4 years in South Africa working at free clinics providing homeopathic and natural therapies for the under privileged.
- During this time combination homeopathic had evolved out of necessity in treating thousands of clients. Bala has been living in Canada since 1978 and has completed training in TCM acupuncture and served on the board of the Ontario Association of Acupuncture and traditional Chinese medicine from 1994 - 2001, helping towards getting acupuncture regulated in Ontario. Bala has worked with Prof. Nelson since 1996, who kindly added all the 215 formulas in the matrix.

Healing Modalities

- Ayurveda
- Traditional Chinese medicine
- Homeopathy
- Biological medicine
- Homotoxicology, inflammation
- Narayani remedies
- Helpful hints
- First aid at your fingertips

Ayurveda

- Ayur-science of life
- Veda-science of existence within the universal consciousness.
- Terms used :
- **Vata**: wind balance in the channels
- **Pitta** : acid /alkaline balance in the channels
- **Kapha** : phlegm balance in the channels
- **Nadis**: vibrational channels throughout the body
- **Marmas**:points/switches for the nadis
- **Soma**:moon negative,cooling energy
- **Agni**:sun positive,heating energy
- **Marut**:space,flow of energy through soma and agni

Traditional Chinese Medicine

- 5000 years old
- Balancing chi in the body via the meridians and harmonizing energies with nature, seasons and time of the day.
- Sees humans as a microcosm with the universal macrocosm.
- The principles that determine the flow of energy through the universe are applicable to the human energetic system.
- There is a correlation to changing equilibrium between polar opposites in nature , yin and yang in the body, season and organs.
- Oldest form of bio-feed back system.
- 12 sets of meridians, paired and mirrored on either side of the body.
- Tongue and pulse also play an important role in diagnosis
- This modality is both diagnostic and therapeutic.

Homeopathy

- A system of healing that was discovered by Dr. Samuel Hahnemann.
- The treatment involves the use of diluted substances from the animal, plant, mineral, chemical substances, and discharges from diseased organs.
- The diagnosis and treatment is based on balancing the **Body, mind and spirit**.
- Vital force, is the body's own regulation system in correcting imbalances.
- **Body**: is disrupted by chemicals, allopathic medicines, vaccinations, environmental pollution, surgery, electromagnetic pollution.
- **Mind**: anger, greed, jealousy, worry, fear, ego, self pity.
- **Spirit**: inherited conditions, spiritual conflict, Miasms.
- **Miasm**: Psora, sycosis, Syphilis, T.B., cancer,
- **New Miasms**: Radiation, petrochemical, Heavy metal.
- **Psora**: nosode Psorinum, sulphur, calcarea, conium, phosphorous, sepia, silicea
- **Sycosis**: Medorrhinum, Thuja, Chamomilla, Lachesis, lycopodium, sepia, sulphur.
- **Syphilis**: syphillinum, Mercurius, sulphur, phosphorous, conium, silicea
- **T.B.**: Baccillinum, tuberculinum, phosphorous, silicea

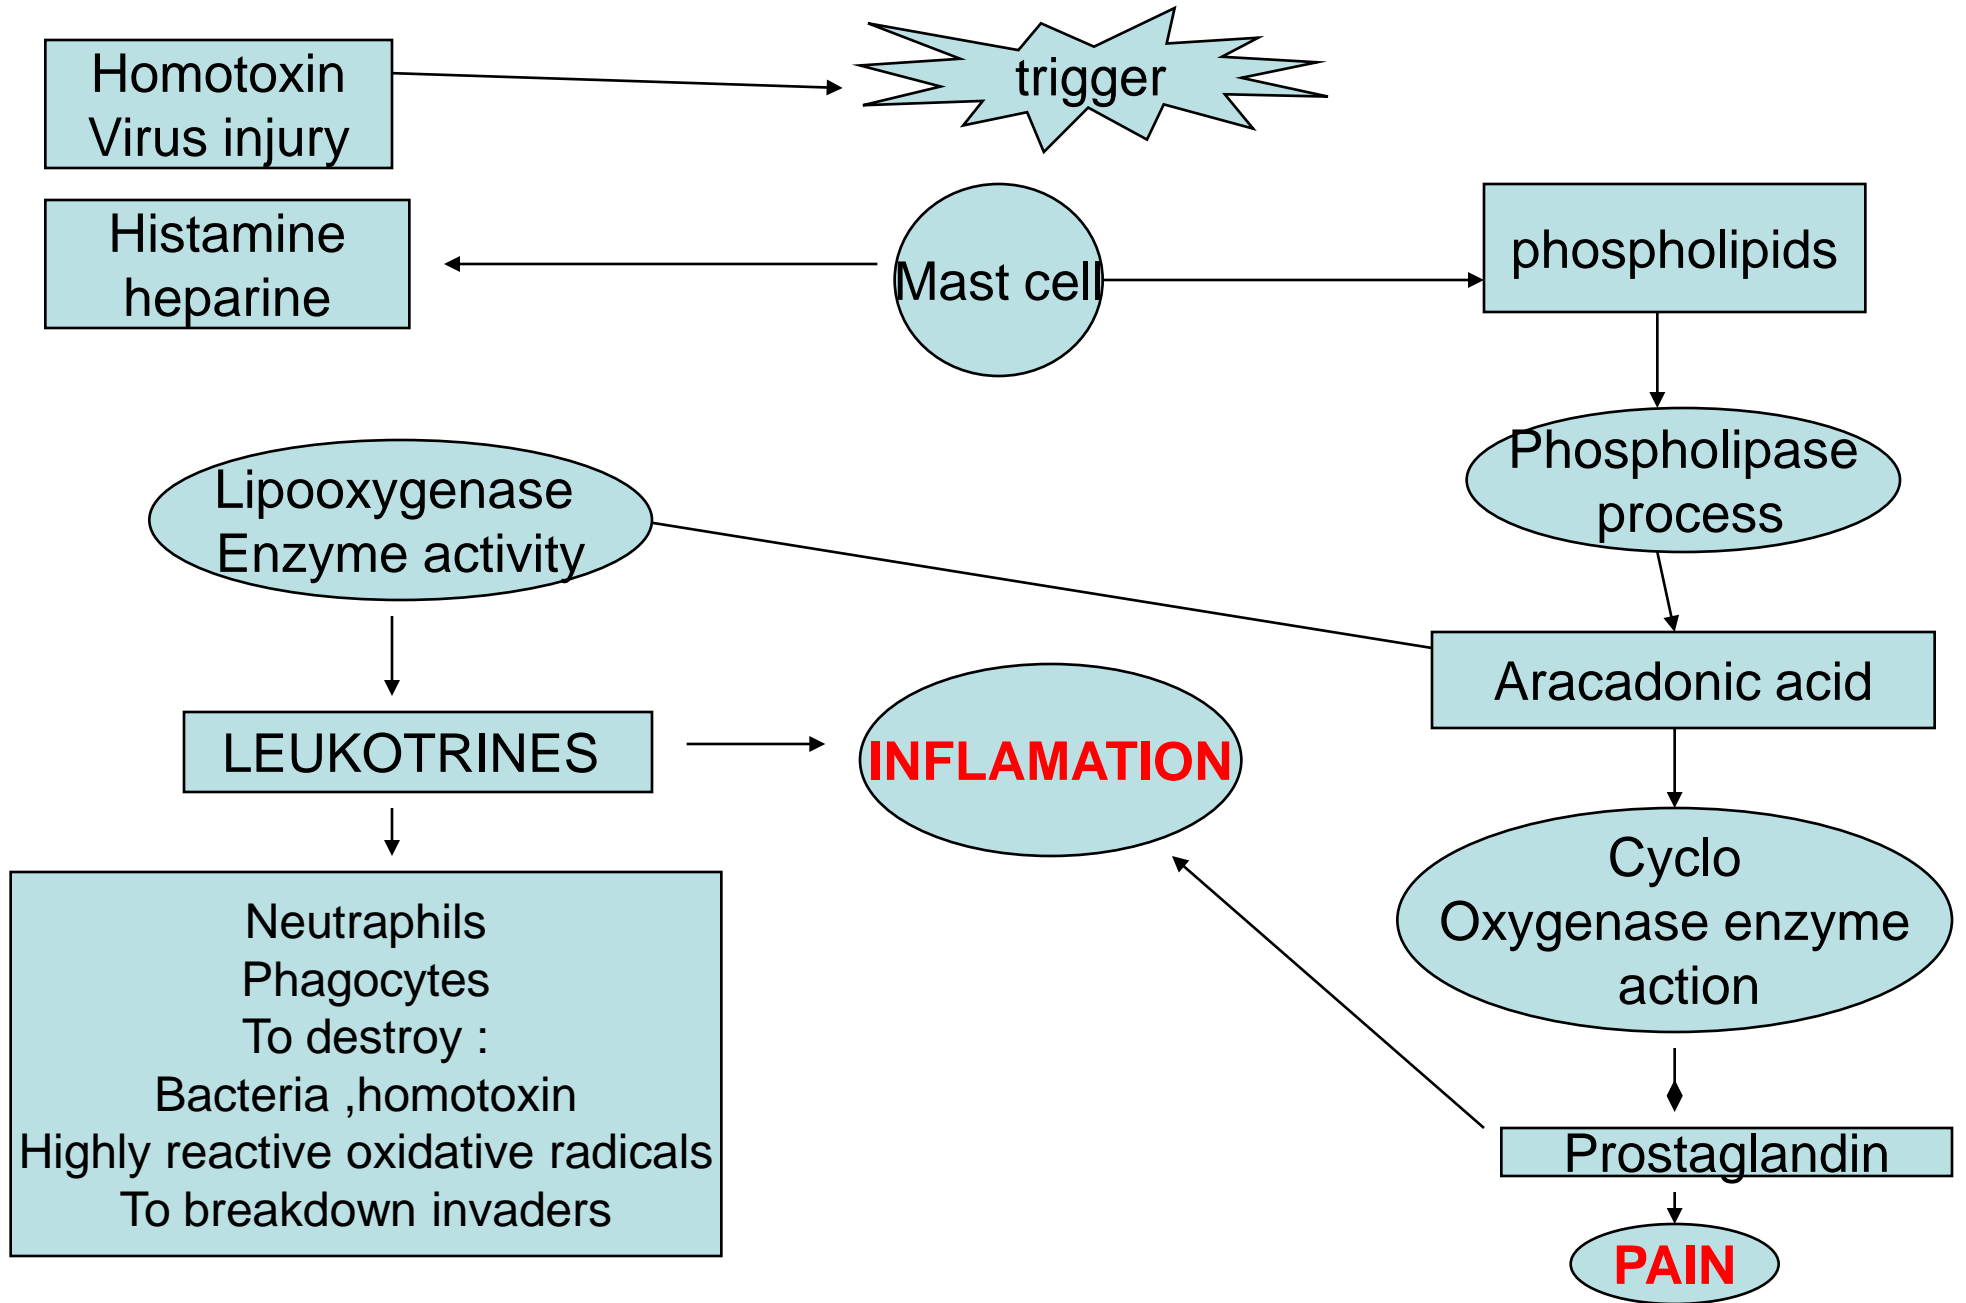

Homeopathy

- Sources: plant, animal, mineral, preparations from diseased excretions.
- Potency preparation:
 - D or X.....1 - 10
 - C.....1-100
 - K.....1- 100 in a single vial
 - LM.....1-50,000

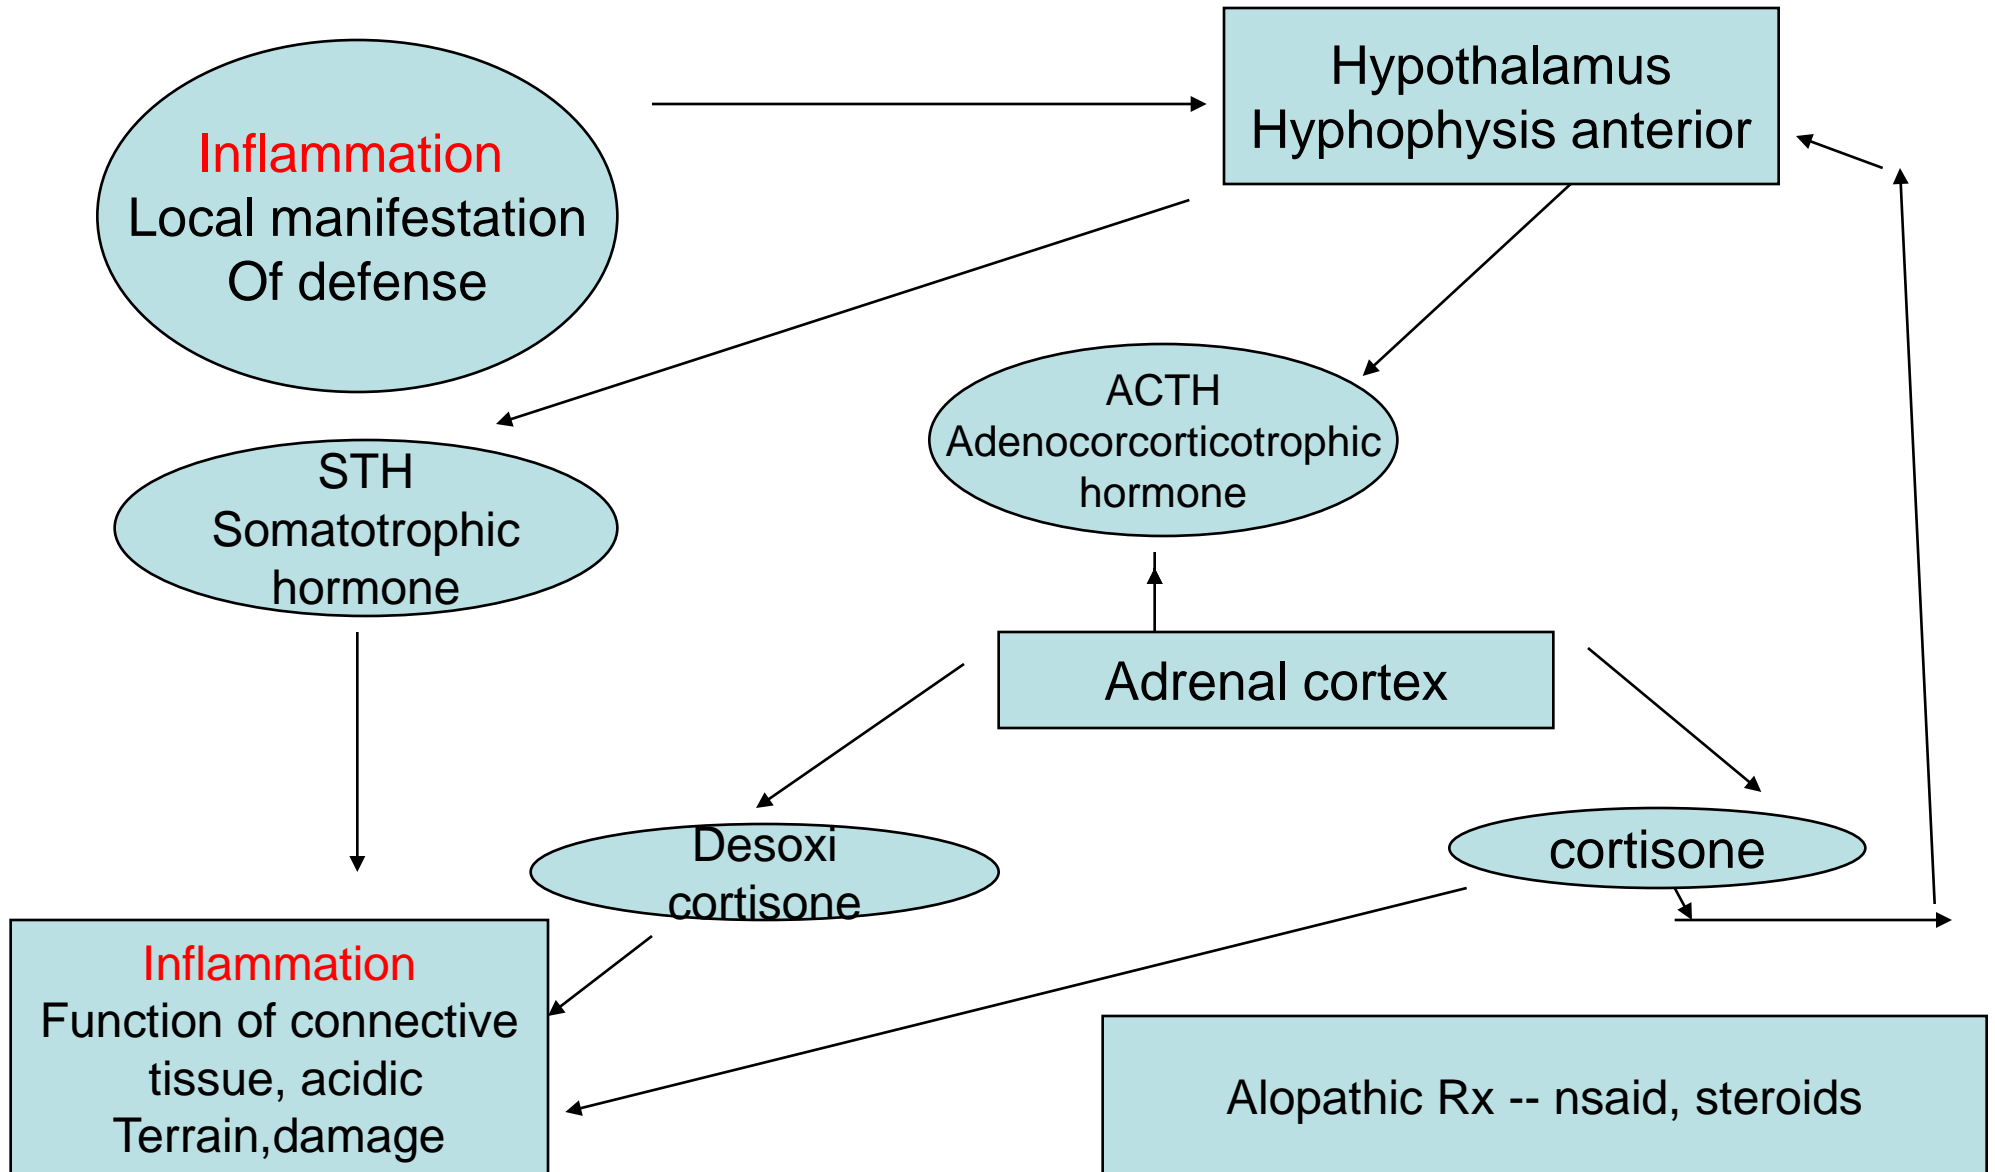

Potency preparations

- 6x potency: chronic conditions, structural ,can be repeated often.
- 30x potency:chronic conditions,functional disorders,can be repeated often
- 200x potency: energetic level,works well with children and animals,also good in acute conditions,dosages used less frequently
- 1m potency: deep emotional,crisis situations,few doses

Inflammation

Inflammation regulation

HOMOTOXICOLOGY

The term Homotoxicology is derived from three words,

Homo-man

Toxico-toxin or poison

Logos- study

Hence the study of the influence of toxins on humans

Two types of toxins:

EXOGENIC: toxins that are toxic before entering the body,(bacteria,viruses, heavy metals etc.)

ENDOGENIC: substances that create an end product through a biological process in the body that are toxic to the body itself, eg Co₂,calcium oxalate deposits,lactate ,uric acid ,etc

Humoral phase,			Cellular phase		
Humoral phase		Matrix phase	Cellular phase		
excretion	inflammation	deposition	impregnation	degeneration	neoplasm

Phases	Homotoxic Therapy
<p>Excretion, most efficacious reaction phase whereby there is normal elimination of toxins via the normal channels. Skin, lungs, bowels and kidneys</p>	<ol style="list-style-type: none"> 1)Single homeopathics, nosodes, echinacea 2) Reduction of new infections. 3)General reduction of antibody stimulation (vaccines) 4)detox diet
<p>Inflammation, during this phase the organism expels the toxins. This results in symptoms of aggravation which in allopathy the approach is suppression</p>	<ol style="list-style-type: none"> 1)modulation of organic activity to help symptoms but not suppress, Aconite, belladonna, gunpowder Narayani, penmycin, fever and infection bal. Guna,flam,Heel,traumeel, 2) Stimulate detoxification, Epsom salt baths, infra saunas, ion foot detox.
<p>Deposition ,in this phase toxins are not expelled but in activated but accumulated in the connective tissue. Here the toxins can be put back in to the blood stream. These symptoms can be activated by eg. Premenstrual phase, psychological crisis. Further suppression of toxins deposit in cellulitic fat, in joints as arthritis</p>	<ol style="list-style-type: none"> 1) Activation of the organic defenses to cause an inflammation phase. 2) Use: Hepar sulph, narayani drawing, tonsils, Heel-thyroidea,tonsilla comp 3) Organ renmnedies: Narayani organo, guna organ remedies, heel organos 4) Homeopathically adjusted allopathic remedies eg, narayani penmycin, 5) Detox diet.

<p>Impregnation, In this phase there is a serious inflammatory illness that leaves damaging after effects. Toxins collect at the organ level and damage the organ itself from allopathic suppression and no detoxification. Hence we get chronic conditions</p>	<ol style="list-style-type: none"> 1) activate organ responses , classic homeopathics, sulphur, thuja, nosodes, Guna matrix, Heel-thyroidea, tonsilla,Narayani drawing, war, 2) Organ support: narayani organo,guna organo, heel suis. 3) Homeopathically adjusted allopathic remedies, 4) Detox diet ,avoiding animal source
<p>Degeneration:deep and organ alteration, cells are no more in balance and have lost the ability to self regulate. Total enzyme deficiency resulting in cells not being able to differentiate into healthy cells, also there is anomalous cell in several organs</p>	<ol style="list-style-type: none"> 1) Activation of specific organ defenses against basic chronic illness. Nosodes, 2) Cleansing stimulus to mainly affected organ 3) Support with oligo vitamins,minerals,catalyst of cells of damaged organs, molibdinum, coenzyme comp, ubichinon, quinones, 4) Organo remedies, narayani, guna Cell. Lymphomysot, gallium heel 5) Stimulus to cells, glyoxal comp., Guna cell 6) Totally vegetarian diet,example Koch diet.
<p>Neoplasm: characterized by the alteration of cellular genetic set and by the cell's release from the central and peripheral control. The therapy in thia case is largely dependent on organs of excretion, intestine, kidneys and skin.</p>	<ol style="list-style-type: none"> 1) Removal of chronic inflammatory foci,tonsilla comp.,procainum comp.,Camp.Narayani fever and inflammation, gunpowder cm., Guna flam. 2) Drainage : kidney intestine, skin ,Guna lymph., lymphomysot. 3) Total vegetarian diet, Koch diet 4) Opposition to cell proliferation, Narayani Viscum .,Heel viscum., q 5) Specific anti neoplastic nosodes, carcinosinum 6) Cell detox, Glyoxal .,parabenzo-quinone, ubichinon.

Biological Medicine:

Three forms in healing today:

- Allopathy; This forms of therapy are attempts to eliminate symptoms without paying any attention to the individual.
- Technical, mechanical, reconstructive surgeries to eliminate symptoms, a reductionist approach.
- Biological therapies employ materials and or energetic principles which at the same time do not conflict with conventional medicine. This process is further divided in to three groups.

Anti Homotoxic medicine	Physical therapy	Neural therapy
Anthroposophical medicine- (Balance of the physical, Ethereic, astral and spiritual Bodies,which exist in all forms of life.)	Physiotherapy	Acupuncture
Homeopathy	Life style counseling	Electro acupuncture
Organotherapy	Nutrition consultation	Bioenergetics therapy
Phytotherapy-(plant extract therapy)	Spa programs climatic/medicinal baths	Bioelectric therapy
	Hydrotherapy / ozone	

Helpful Hints: Bala Lodhia D.Ac.,D.H.

Prophylactics in Homeopathy

Homeopathy has the advantage of enabling a whole population to be immunized without the least risk. The present frenzy of vaccinations of all kinds given to the masses and poor innocent children is a most harmful practice on account of the doses used.

However when homeopathically applied has proven very efficacious with no side effects. 5000 years ago the Chinese the Chinese taught ,that treating disease was the work of labourers, but the prevention of diseases from breaking out is an architects work.

Homeopathy possesses many such prophylactics, mostly used in single doses and in centesimal Korsakov potencies.

Diseases	Homeopathics
Scarlet fever	Bellodonna M or Scarlatinum M
Measeles	Morbillinum M
Whooping cough	Pertussin 200 c
Mumps	Parotidinum 30c
Diphtheria	Diphtherinum XM or diphtherotoxin m
