[ENGAGE: Energize Naturally with Grace and Gratitude Endeavors](#)

Dear ENGAGE Team

Re: ECOLOGY QRPOD (Quantum Relief of Pain or Distress) Introduction

INTRODUCTION: Hello, I am Dr. Deborah Anne Drake, author of this research and education www.QRPOD.com program , cosponsored by Quantum Relief Inc and the InstituteOfQuantumMedicine.com. I invite you to partake in this new QRPOD Protocol for the sake of improving Earth's ECOLOGY. This quantum biofeedback assisted retraining or reeducation system, previously developed for rebalancing the internal health environment, can also be adapted for use on the external environment to help the air, water, land, flora and fauna of our ECOLOGICAL WORLD. Thus, I have developed the ECOLOGY QRPOD using Eclosion scanner quantum biofeedback protocols to help rebalance, neutralize and reduce environmental strain from external toxicity. Notably this technology can be delivered remotely to people, locations and inanimate objects or animals as well. Imagine cleaning the Ecology of our polluted world non-invasively? Now we can turn the same Quantum Biofeedback (QBF) Eclosion Scanner (EPFX or SCIO) technology towards pollution control in an attempt to support, cleanse, restore and rebalance the cities, the air, the land, and the water supply in nature and the environment around us. Please see the attached overview of QRPOD on ECOLOGY Relief phases, with attendant critical issues and how many of these may be quickly and cost effectively addressed using non-invasive, remote quantum biofeedback scanning and precision quantum peak performance and stress, pain, relaxation therapies.

APPLICATIONS: The burden of toxicity for pollution of the air and water, land and people has made headlines for some time. How can the public help stop this escalation? How can we improve the health of our industrial cities and the environmental changes they bring without costing a fortune nor playing the blame game? Is there a cost effective pollution control strategy for the twenty first century that we could demonstrate, perhaps as an example, this year as the world convenes in Beijing for the Olympic Games. Can we use this opportunity to engage with the ECOLOGY QRPOD protocols in a non interfering and safe attempt to reduce and clear the industrial smog from the host city? The improved

bioterrain would benefit athletes and residents alike and the world would witness this benefit. For this purpose, I attach a sample spreadsheet overview of the many easy to administrate options available for non invasive constructive, cost effective, rapidly deployable interventions which could have a measurable effect on the Ecology of a local environment. What better setting than the Olympics Games to support the goals of integrated community, promote the highest purity, honesty, truth, and to reduce the risk of doping, politics or external pollution from interfering with the protective shield of that city. Clearing pollution and smog for the air quality alone would benefit everyone. I have the tools and education, the QRPOD protocols and desire to assist you learn to do just that – provide immediate Quantum Relief of Pain or Distress in the ECOLOGY.

EQUIPMENT: Please be advised that Quantum Relief Inc. (Ontario and BVI) is a worldwide distributor for Ecllosion Scanners for research, education and disaster relief. This scanner is approved and certified or licensed in various countries as a Class II medical device with high safety rating and low energy consumption and output, resulting in no mishaps and efficient operating costs. THE QRPOD serves to neutralize, restore and balance stress points electrically detected by the precision computer assisted mapping tool, the Ecllosion scanner. The objective results lend themselves well to research analysis and point to emerging trends, early warning signs and can intervene in emergent situations, as well as point to ongoing streamlining or new applications. Quantum Biofeedback uses a harness or can work in remote mode called subspace transmission requiring no wired connection. It locks to a living thing by birth date, or to a location (latitude Longitude) and can map 10,600 items in 3 minutes for rapid, 85% or more accuracy. It can place an orgone field generator signal like a protective envelope to umbrella large areas or populations at once in a non invasive way. Using bioenergetic corrective signals, toxins can be identified, then inverted and neutralized electronically and thus rather instantaneously, much like a debit can neutralize an equal value credit in accounting. A toxin can be inverted or neutralized with the mirror image hologram of itself. Bioelectrical changes and restorations can result within seconds to 90 hours typically. Repeat sessions such as weekly for 12 weeks may be required depending on the size of the territory and the degree of imbalance.

RESEARCH: Over the past 5 years I have written the AQMIN Journal Of Quantum Medicine monthly, lectured in 35+ cities, studies worldwide with other master instructors and the inventor, and collaborated in research on the clinical efficacy and safety of Ecllosion scanning in an institutional review board (IRB) process that was completed in 2007. I was a peer review physician for this collection of 275,000 case studies through my direct relationship with the inventor and my mentor Professor William. Through this LARGE SCIO TRIAL process, I have co-authored and published 69 studies showing a: the uniformly lack of negative side effects and b: the overwhelming positive efficacy and safety of the Ecllosion scanner in a multitude of stress, pain, relaxation and peak performance

conditions. Since such detailed statistics are objectively measured on each scan, a new research TOOLS button has been added in May 2005 to the Eclasion Clasp 32 Software to enable anonymous met-analysis of data. This percentage probability scores are easy to interpret, help with ease of application in the hands of many different health professionals. Importantly, it improves the acumen of the user, improving quality care, and provides a measurable research tool to gauge the efficacy and function of western, eastern, allopathic and complementary medicine This objective integrative comparison was largely missing before now. With high accuracy and predictive value, along with the charting, billing, and health record function of this integrated portable tool, the Eclasion scanner is imminently versatile, time saving, error reducing. It provides a qualitatively and quantitatively accurate objective measurement as to the true nature, degree of impact and solutions to the source of the stress, thus reducing recurrences, improving compliance, and fostering self care. This can only help the health professions, industries, environments, and show measurable, reproducible effectiveness to clients, communities, governmental and funding agencies.

CONSULTING: To support this process, I have spent 6 years building the research, case studies, and protocols plus the infrastructure to import and teach this Quantum Biofeedback Eclasion Technology. In addition, through my internet satellite mentoring and supervision, telemedicine web meetings can get new technicians up and running within hours, days, and weeks. As a Biologist, an international Quantum Biofeedback Examiner and Instructor, as well as an experienced Canadian Emergency, Family, and Sports Physician, I am well aware of the many facets necessary to produce full spectrum integrated success. Towards this end, I have been developing the QRPOD systems for Pain, Stress, Relaxation and Peak Performance. In addition to this recent ECOLOGY program I can customize detailed protocols for the specific needs of the client, business, or location as demonstrated in my other QRPODS for Agronomy, Health, Sports, Animal and Economic Health. In addition to consulting services, www.quantumrelief.net is a licensed international broker for Eclasion scanner importation. This brokerage has its own Medical and Research Advisory and scholarship program to help import, install, and certify quantum biofeedback Technicians, specialists and instructors worldwide.

EDUCATION: The International Medical University of Natural Education and the Neurotherapy and Biofeedback Certification Board accept the QRPOD program and coursework for study credits towards a Certified Biofeedback Technician, Specialist or Instructor degrees. In addition the Drake Scholarship for Continuing Education provides free enrolment to the InstituteOFQuantumMedicine.com Quantum Biofeedback Program to help build leadership, independence, self-study and to entice further education by defraying continuing education tuition costs. Through my internet based cyber school called IQM, I can supply quantum biofeedback education and credentialing service, 24 hours & 7 days per week for any time zone, to ensure student access to high caliber education. The integrative training materials from my extensive and growing quantum

biofeedback archives at IQM (www.InstituteOfQuantumMedicine.com) can support any level of students and instructors from around the globe through the internet.

LEADERSHIP DEVELOPMENT: In keeping with the remote functions of the Eclosion device, I have built a remote education package to assist new users. Both Eclosion scanner importation from www.QuantumRelief.net and internationally accredited IQM class work is amenable to helping career development in your community. Equipment importation takes no more than 4 weeks or so for delivery from Budapest, Hungary but the Eclosion Clasp 32 software can be accessed immediately upon purchase, shipped on a laptop and therapies can begin immediately after training for unprecedented rapid deployment even in remote areas. Extensive coursework, including the Prerequisite, Beginner, Intermediate, Advanced Software navigation, plus Pain, Stress, Relaxation and Peak Performance Clinical Skills courses are already available online now for study credits. Education can proceed rapidly from the basic English speaking courses which offer a variety of learning style resources such as audio lecture, written E-book transcripts, PowerPoint summary presentations, or even DVD resources, and lesson plans are ready for you to teach others as well for instructors using our complete Turn Key Program called the QRPOD (www.qrpod.com). IQM is produced in the international language of science, that of English, with available translations into other languages such as Spanish or upcoming in Chinese.

REMOTE OPTIONS: All that is required to launch the ECLOGOGY QRPOD is a power source or the use of compact solar power generators to charge the Eclosion scanner laptop computers. Thus there is wide applicability since it can be used anywhere that a laptop can be used and can broadcast remotely in subspace mode to any location on earth. The QRPOD contains one laptop computer and a large, compact Quantum Biofeedback QBF Eclosion program called Clasp 32 program, plus an 8x6x3 inch Computerized Graphics Program and Harness box which can be instantly set up and begin to provide a world of good. In addition to the ECOLOGY QRPOD written and video stream or DVD teaching Protocols provided, other prefabricated or custom disease or occupational QRPOD modules are available for any targeted issue. In the ECOLOGY QRPOD, I present here a detailed list of quantum solutions to once thought insolvable issues relevant to helping to empower self-sustaining communities, especially those under duress. Though there are 2600 other modules to choose from in total, the ECOLOGY QRPOD modules listed, however, are the most relevant to immediate pressing pollution related issues, and will give you a sense of the awe at the completeness and versatility offered by quantum technology using the Eclosion scanner.

SUMMARY: The Eclosion scanner can be broadcast in person in harness mode, or from any central home base to remotely protect distant workers, animals or

crops in the factory, field or waterways. Similarly, further internet access to educational tools can be remotely broadcast. Students can learn at their own speed, while teachers can observe their progress via on line quizzes after each learning module. These Continuing Education Units can be tracked for study credits to promote local and global Stress Therapist Certification and leadership development from the grass roots up. These manpower and deployment issues become critically relevant given the state of our ECOLOGY. The headlines scream of climate change or natural disasters, floods, earthquakes as we have seen so recently as in the wake of the Asian Tsunami, the New Orleans Hurricanes, the ongoing AIDS crisis in Africa, and the upcoming prevention of the Avian Flu Pandemic, the Earthquake in China and the upcoming Olympic Games Purity and Security, even protection from terrorism and war.

SOLUTIONS: In order to immediately address these Ecological and other population needs with low cost, rapidly deployable, remote access therapies for large spaces or populations, I encourage you to Engage in Quantum Relief using the ECOLOGY QRPOD. This modular, easy to learn, reproducible holistic evaluation and therapy system called **QRPOD's** stands for **Quantum Relief of Pain Or Distress**. Can you see where the need exists and are you willing to learn how to help? I hope this information helps you in positively evaluating the low cost and exceptional health effectiveness of this tool as you search for rapid deployment tools for massive populations or locations in need of pain or stress relief. In future, ask me about the Agronomy, Veterinarian, Natural Resources and Economy QRPODs for the mapping of health issues, pesticide and water consumption improved agriculture and animal health, economic benefits from detection of stores of precious metals or toxins from the land search functions.

YOUR CHALLENGE: I hope you will consider joining our Quantum Relief Inc efforts to ENGAGE IN QUANTUM HEALTH and LIVE BETTER BIOENERGETICALLY. I hope you will participate and help heal the planet and its people by engaging in this turn key ECOLOGY QRPOD Resource Kit, with Eclosion Equipment and laptop computer, technical support and extensive on line training. I look forward to assisting you on this mammoth project, and I know we can make a significant, measurable difference in the lives of many who are suffering all over the world. If I can be of further assistance, please do not hesitate to call me at 905-431-7936 or email: bioenergetix@xplornet.com or harmonize@xplornet.com.

All the best for now.

Sincerely,

Dr. Deborah Anne Drake, BSc, MD, CCFP(EM), FCFP, CQI
Master Quantum Biofeedback Diplomat Instructor
Medical Research Director and Provost

ATTACHMENT #1: QRPOD ECOLOGY Modules for the Eclosion Scanner

Quantum Relief - ECOLOGY QRPOD Modules by Deborah Drake Copyright 2006, 2008 All Rights Reserved

	Critical Issues	Quantum Solutions
I Needs Assessment	1 Water Supply	1.1 Water Analysis, Water Energizing Q2 function, AutoRife, Homeopathic Activation
	2 Blood Purification	1.2 Blood Tests, Dark Field Blood Analysis & Cleansing, Pilomorphic Stabilization
	3 Disease Detection	1.3 Disease Dictionary, Sarcodes, Sports injury, Body Scanner, Iridology Anatomy,
	4 Disease Containment	1.4 Mapping type + source, ELF generator orgone field correction, remote therapies
	5 Mortality Issues	1.5 Reduce Epidemic, Population Scalar protection, Superconscious reduction panel
II Acute Search/Rescue	1 Acute Survival Tactics	2.1 Risk Profile, Quick Therapy, Causes, Aggravations, Chart, Current Rectification
	2 Physical Trauma Repair	2.2 Injury Repair, Chiropractic, Acupuncture, Pain, Biofeedback, Timed Therapies
	3 Mental Trauma Repair	2.3 Reactivity Disorder Repair, NLP Therapies, Stress Reduction, Mood disorder
	4 Psychological Trauma	2.4 Biofeedback, NLP Therapies, Stress Reduction, Hypnosis, Anti-Aging, Aesthetics
	5 Spiritual Trauma Repair	2.5 QIF, Sacred Geometry, 24/7 Prayer Wheel, Hololinguistic Programming
III Stabilization Phase	1 Medical Trauma Tents	3.1 Oxygenation, ECG, Trivector & DNA repair, Injury Repair, Fractures , Dental,
	2 Infection Prevention	3.2 Food Poisoning Control, Autozap bowel flora, repair sarcodes, Isodes, nosodes,
	3 Respiratory Isolation	3.3 SMOG reduction, ELF, Autozap pathogen, Toxin+ Allergy Desensitization
	4 Sewage Containment	3.4 Geopathic stress, Pollution Inversion Infection and Homotoxicology detection
	5 Food Chain Protection	3.5 ELF Orgone Biogrowth module to double photosynthesis, non-pesticide crops
IV Long Term Rebuilding	1 Rebuild Immunity	4.1 Colour, UV light, Restore Electrical Shield, Polymorphic Trans, Body Face Scan
	2 Rebuild Morale	4.2 NLP therapies, Higher Purpose, Relaxation, Stress, Pain, Trauma & Grief Assist
	3 Rebuild Communication	4.3 Superlearning, Enhanced learning, Harmonic Therapy, EEG Balancing
	4 Rebuild Transportation	4.4 Air, Land & Water pollution , Repair degenerative states, Sacred Geometry
	5 Rebuild Community	4.5 Agronomy, Natural Resource Detection, Leadership in Certified Stress Therapists
